No appointment or
insurance needed.

About Us

Our Mission:

Provide free, high-quality healthcare with dignity to patients in need, practice the principles of public health in an interdisciplinary fashion, and effect change in the Greater Toledo area.

Our History:

In 2010, CommunityCare Clinics began providing free, comprehensive healthcare services to the under-insured of Toledo in association with the Mildred Bayer Clinic for the Homeless. In 2011, the clinic served nearly 1,000 patients. In March 2013, the clinic moved to its current location at CedarCreek Church, South Campus. Since that time, we have expanded significantly, serving approximately 8,400 patients in the year 2021.

Our Qualifications:

In 2021, our clinic earned the Gold Rating from the National Association of Free Clinics (NAFC) Quality Standards Program.

Services We Provide

- **Comprehensive primary care**
- **Basic blood lab services**
- **High blood pressure (hypertension) and diabetes education & management**
- **Asthma & COPD education and management**
- **STI and Pregnancy Testing**
- **Confidential and free HIV testing**
- **In-house pharmacy**
- **Shelf-stable food and to-go meals**
- **Work, school, or sports physicals including adult vision screening**
- **Assistance with applying for health insurance such as Medicare, Medicaid, and CareNet**

Additional Services

- Vision screening and optometry referrals
- Mental & behavioral health counseling referrals
- Food pharmacy referrals for those with food insecurity and/or health conditions requiring special diets
- Physical and occupational rehabilitation
- Narcan/naloxone training and distribution

But, how much does it cost?

Most of the time, nothing!

Medications and treatments provided **on-site** are always **FREE**, and we work with you so that there are no surprise costs when it comes to getting you the absolute best healthcare possible. If outside lab tests or imaging are needed, we will help you complete a financial aid application to determine your expected costs based on a sliding scale.
